

THE WINE LIST

With only about 50 or so labels on our wine list, there is no margin for error. Having wines from all five continents around the globe all the way to local NSW wines, is for one reason only: It's because they're fantastic wines. Organic fruit and biodynamic vineyard practices are preferred, yet, are not sole criteria.

Cheers.

"I like to think about what was going on the year the grapes were growing; how the sun was shining; if it rained. I like to think about all the people who tended and picked the grapes. And if it's an old wine, how many of them must be dead by now. I like how wine continues to evolve, like if I opened a bottle of wine today it would taste different than if I'd opened it on any other day, because a bottle of wine is actually alive. And it's constantly evolving and gaining complexity. That is, until it peaks, like your '61. And then it begins its steady, inevitable decline."
